

Seed Saving Tips 2022

# Tomatoes

Tomato plants are in full bloom with a vibrant red and delicious crop!

## To harvest the seeds:

1. Pick a very ripe tomato.
2. Cut open and scoop out seeds and pulp.
3. Place seeds and pulp in a jar and add some water.
4. Let sit at room temperature for a few days, stir once a day
5. Remove the seeds, and rinse.
6. Let the seeds dry for a couple of days before storing in an airtight container. Keep the container in a cool, dark place until you are ready to plant next spring!
