

Seed Saving Tips 2022

Zucchini

Running out of recipe ideas for your zucchini crop?

This time of year, you may have over-ripened zucchini still on the vine. The leaves will have died down and the zucchini has started to turn yellow or orange. This is perfect for saving seeds!

To harvest the seeds:

1. Cut open the hardened zucchini
2. Scoop out the seeds
3. Rinse the seeds in water, separating out the flesh from the seeds
4. Leave the seeds out to dry in a warm spot for 3 or 4 days
5. Store in an airtight container

To learn more about saving seeds, visit: https://tndf.ca/seedlibrary_communitygarden

If you have any extra seeds, we would love to use them to help our community grow. Our Seed Library allows community members to access seeds for FREE and can be found in any of the Brock Township Public Library branches (<https://brocklibraries.ca/hours-and-locations/>).
